The Prez Sez- de Earl, N5TU

I am assuming the raffle has met with some success as I have not heard anyone begging for money as if we were broke. Madison should have the full results of the fund raiser at the meeting. I would especially like to thank Bob, W5SJS, for getting the tickets this year as he always does. Bob provides this service every year for the club. We were also able to maximize the take by not running out of tickets this year so I guess we finally have the right amount of tickets. I also want to thank Madison, W5MJ, for his efforts in spearheading the raffle. If you could see Madison at the booth in Dallas you would see how shamelessly he cajoles people into buying a ticket. Our ticket sales in Dallas were better than usual no doubt due to Madison's efforts. Now that we allegedly have money it is time to finish up the DXcluster. Jim will be outlining the next steps in building the cluster. Looks like we will also be needing a work party in order to get the permanent antenna support structure installed. We might also want to consider buying the AR software and getting the computer ready to go online. I'm sure the discussion will be lively. I trust everyone found the time to get to a Field Day near them. I managed to operate at the NARS site for a few hours and even managed to meet some prospective potential TDXS members.

Prez Sez Continued

Hopefully I will be able to get them to a few meetings in the near future.

Finally, the membership vote on Bill, W5SB, was positive so please welcome our latest TDXSer into the fold.

See you at the July meeting.

Arlington Raffle is a Smash!
Riot Police called in to control crowds!

de Madison W5MJ

Well, it's history now, but at the time it was all we could do to keep up with the happy buyers. The club's Yaesu FT-100 is now in the possession of Mike from Tyler, N5NPT (or something like that), who bought the winning ticket and 11 other ones about 1 p.m. on Saturday, June 10. At the time of the drawing, about 75 folks were on hand to see if that was their lucky day (which it was not, at least at the TDXS booth).

The raffle itself was a great success. We sold about 4000 tickets for a total of \$3500. We picked up the radio at Houston Amateur Radio Supply in mid April. Susan Hance SU7AN (or at least that was what her name badge says) started the ball rolling by selling a large number of tickets at Belton. Bob Walworth N5ET (the former AK5B) did a great job of making his retirement pay by selling every past, present, and future member of NARS at least a handful of tickets. The rest, about \$1500 worth, went out at Arlington. We were even able to convince Martin Jue K5FLU (Mr. MFJ, in case you were unaware) to give \$5 to the benefit of the club treasury, though we were not as successful with Gordon West (he declined, thanks very much).

Thanks to everyone who made this year's event a great success!

Ed note: A huge thanks to Madison, and to Bob W5SJS

Packet Racket by Jim, N5DC

The time is at hand for us to upgrade the packet system, which is running pretty much in the dark ages, as to computer technology.. The DeMontrond site has tested out very well. George has offered to purchase for the Club a 50' crank up mast, for a permanent installation. I will ask the Club to appropriate funds for the purchase of the mast, and when it arrives, George will reimburse the Club. After we install the mast, the next order of business will be to purchase the AR software, for the packet cluster, which will bring us from the dos based AK1A software, into the Windows 98 world. While all of this is going on, our offices at DeMontrond are being remodeled. When that is completed, I will be moved to and area, where I will have access to the T-1 line, which will then put the Cluster on line day and night, without having to depend on the UHF link to K5DXC. Earl is working on some Motorola equipment, that will help the system become more reliable as well. All in all, it will be a complete makeover of our packet cluster, but I believe the end result will be one of the best systems in the country!
