Texas DX Society

An ARRL Affiliated Club

2001

August

Issue 8

The Texas DX Society, P.O. Box 540291 Houston, TX 77254-0291

President

Buzz Jehle, N5UR

(713)464-6023 dxer@orx.com

Vice President

Madison Jones, W5MJ

(281)350-4330 w5mj@swbell.net

Secretary

Ed Gerber W5GCX

(281)351-4170, w5gcx@fnn.net

Treasurer

Dave Topp, W5BXX

(281)-879-9973, w5bxx@aol.com

Contest Chairman

Dale Martin, KG5U

(281)484-4465, kg5u@hal-pc.org

Field Day Chairman

Dave Topp, W5BXX

(281)879-9937, w5bxx@aol.com

Repeater Chairman

Earl Morse, N5TU

(281)356-2128, kz8e@wt.net

DX Chairman

Steve Smothers, W9DX

(281)376-9248, cougar70@earthlink.net

Communications Chairman Jim Lane, N5DC

(281)-358-0051, n5dc@arrl.net

Announcements

**SEE PAGE 4 FOR THE MEETING
ANNOUNCEMENT**

How to Reach Us

On the World Wide Web: <http://www.tdxs.org>

On 2 Meters: 147.96/36 MHz (100Hz)

On 70 Cm: 447.00/442.00 (103.5 Hz)

On Packet: Connect to **TDXS71** (145.71) then connect to K5LV

Reflector: Send to: majordomo@moonbounce.n5iq.org

In the body of your message only put: subscribe tdxs-list
do *not* include your email address, as the reflector will pick
it up automatically. Put nothing in the subject line.

The Prez Sez- de Buzz N5UR

I look forward to meeting with you all Thursday. Hope my plane is on time as last month I got there in time for our Paul Frantz, W5PF's presentation on J3, but I was too late for dessert as they had sold out of baklava! Too bad more of you didn't make it as the food was excellent by all counts and hopefully Madison will do as good this month. I have scheduled my flight earlier this Thursday so I will be there for 6! Don't forget to bring your bureau cards; it's time to send another load to the ARRL. The summer doldrums are upon us, and no major expeditions on tap, but many IOTAs are on the air as well as vacation island operations in the US, Canada, Ukraine and many other countries showing up. There have been some long path opening to northern Europe on 20 over the South Pole, as well as some late night early morning opening on 15, so tune around and fill those logging programs.

One thing we all need to do is bring some potential new members to meetings. Lots of our hobbies are graying, and we need new and active blood to keep things moving. I went to a stamp show this weekend and I was one of the young guys! How about a contest to see who can bring in the most new members this year?? That's it from this end. See you Thursday and bring your cards.

In a another timely move, the ARRL just announced that it is working with most of the major contest logging software vendors to support the electronic contact verification. The “Logbook of the World” logging software modules are being developed as part of the Trusted QSL open-source project headed up by Darryl Wagoner, WA1GON. Once finalized, the log data generated by DX-peditions, contestors, and even individuals will result in quick QSO credit for any number of awards offered by the ARRL, and eventually other organizations as well.

The ARRL program is expected to be complete by the middle of next year . The data repository would accept authenticated data directly from logs submitted via the internet. Once established it is hoped that the program would also allow database look-ups. This program will certainly speed the process of award attainment while cutting league costs considerably. For additional information, visit the ARRL website and go to the “Trusted QSL” web link.

I only wonder now what Bob and Linda Walworth will do without DXCC cards to check! Sorry guys, but it looks like you’ll have to face yet another retirement party!

In the coming months, I plan to write about DX-ing with modes other than our favorites: phone and CW. It’s time for most you old codgers to put some excitement back into DX-ing and try something new. For the last month or so I’ve been having a ball with PSK and SSTV and will share some thoughts on this later.

August Meeting Announcement!

In order to placate our members of Italian descent (many of whom are becoming restless and somewhat bad tempered, presumably from lack of pasta), the August meeting of the Texas DX Society will be held starting at 6:00 p.m. on Thursday, August 9, 2001, at Tutto Bene (which means Gud DX in Italian) Restaurant, 4618 Feagan, in Houston's Heights District. Feagan is about 2 blocks north of Memorial at a traffic signal, and the restaurant is a block east of Shepherd. This is the home of the famous Exploding Tomato! NN5O promises to be in attendance to demonstrate his technique. Don't miss it.

Dxpedition to St. Pierre and Miquellon in the works

By Madison W5MJ

Always wanted to go somewhere and give Qs to The Deserving without having to risk getting beri beri or having your shrunken head on a pole outside the hut of a tribal chieftan? Well, here's your chance to go somewhere not too far away but still rare enough to generate big pileups. Your TDXS Dxpedition Planning Committee has come up with a proposed trip to St. Pierre and Miquellon for CQWW SSB in October of next year.

St. Pierre and Miquellon are two islands off Newfoundland's Grand Banks a few miles, but still a little bit of France in North America. Joey W5BAK and Madison W5MJ are planning a fact finding trip up there on September 20 for a few days in order to scope out the territory. The present plan is to make arrangements to conduct an all band, all mode operation for the week preceding CQWW SSB in October, 2002. Though there are about a dozen resident amateurs in FP, they are infrequent visitors to the bands. This year there have been fewer than 50 spots on the DX cluster so far, and the occasional solo Dxer who has traveled there has had all the action one could want. Europeans always go nuts for FP, it seems, so we thought we could join in the fun.

We anticipate having a team of about 10 people, so see W5MJ or W5BAK for details, and mark your 2002 calendar now!
