

1821 Meadowview Drive  
Alvin, Texas 77511  
November 22, 1972

Dear Club Members:

Enclosed you will find the presidential ballot and the membership ballot for Bill Bradford, K5LWL. Mark your choice of each of these and place the paper in the ballot envelope supplied and return it to me. I would like for it to be postmarked before December 1st. Once again, I would like to ask that you vote for either K5LZJ or K5PFE rather than myself because I have my hands full in the Secretary/Treasurer position.

Another member has been nominated and is in the 30-day waiting period. He is Leon Pringle, ex-W5RMC (awaiting a two letter call).

The official Texas DX Society 2 meter FM frequency will be 146.55 mc. We hope to have a DX net going there before the first of the year.

It is time to be thinking about the winter banquet. If anyone has any ideas on places and dates, let me know. We will probably have it in January again about the 2nd or 3rd weekend.

WA5LES was successfully elected into the club. Congratulations are in order to Tom.

If anyone made any contacts in the recent contest (DX and Sweepstakes) be sure and send in your logs and notify me as to your score. The more we send in, the better the club looks.

Richard L. King, Secretary  
Texas DX Society
