February 27, 1974

Dear Club Members,

We have three new members to vote on. They are WA5WQF, WA5WCT, and W5NMA. They have all returned their applications and the necessary 30-day waiting period has expired. Enclosed are the usual ballots and envelopes. Mark the membership ballot and place it in the ballot envelope. After sealing return it to me in the SASE provided before March 10th.

Also please fill out the enclosed questionnaire. This information is necessary in order to complete our 1973 year-end annual club report to ARRL.

We will be starting our regular meetings in April. The meetings will be held on Friday nights except the December banquet which will still be on Saturday night. Here are the dates:

April 12th (Friday 7 pm)
June 14th (Friday 7pm)
August 9th (Friday 7pm)
October 11th (Friday 7 pm)
December 28th (Saturday 8 pm) - Winter Banquet

The location will be the Bonanza Sirloin Pit on Interstate 45 (Gulf Freeway) about two miles south of the Gulfgate Shopping Center. It is on the East side of the freeway and the best exit to take would be the Howard Belfort exit. I hope as many as possible of the membership can make it.

We have three more weekends of DX contests coming up. I hope as many members as possible will participate and send in your score no matter how small it may be. If you need log sheets and summary sheets, let me know in the return mail and I will see that you get them. Its always nice to see a large club participation in the contest activities.

Its time to start thinking about Field Day. This is our club's premiere activity, and we always hope to improve on our former showings. If you have any good ideas for a location let me or K5RLW (Field Day Chairman) know. In the past there has been a small group of us that go to the site on

Friday morning to get started. This year I would like to see as many of us as possible getting started Friday morning. Last year we barely were ready in time to start the contact. This year it would be nice to be ready earlier. So try to take Friday off and come out and help.

Richard L. King, Secretary
Texas DX Society
