Dear Club Members,

We have a new member-elect to vote on. His name is Wesley Spence and his call is WB5HOD. You may remember that Wesley was out with us last year on Field Day and did a good job with the novice group. He lives in Nederland and now has an Advanced Class license. Enclosed you will find the usual ballots with which to vote on his membership.

Our next club meeting date has been changed! It is now scheduled for June 8th at 8 pm at the Bonanza Sirloin Pit on Interstate 45 (Gulf Freeway) about two miles south of the Gulfgate Shopping Center in Houston. It is on the East side of the freeway and the best exit to take would be the Howard Bellfort exit. It is the same spot that our last meeting was held. As usual, we will try to be on 146.94 mhz and 146.55 mhz to talk guys on.

We are looking for a generator or something that would put out about 10 to 20 volts and could be driven by a windmill or bicycle. This is to power a transistor rig so we can qualify for the 100 free points allowed in this years Field Day. If anyone has anything or an idea that would solve this problem, get in touch with me or call me at 713-331-4864 or call Earl, W5RTQ at 713-488-5186 as soon as possible.

Also, we would like to find someone with experience in working Oscar. Working through Oscar is worth 50 extra points plus we get to count all contacts without having to close down another station.

We also need more operating tables and chairs. Anyone with a portable table or chairs, please contact Wes, K5RLW at 713-626-0592.

Another thing needed is Gasoline cans. Due to the gasoline shortage we will need as many gasoline cans as possible for Field Day. Also notify Wes if you can supply this item.

Well that it for now. I hope I haven't forgotten anything. Hope everyone can make the meeting.

73's

A handwritten signature in cursive script, appearing to read 'RLK', written in dark ink.
