

FIELD DAY 80 K5DXJUNE 28-29

Gentlemen,

We Hope to see as many of you as possible for field day this year from Thursday evening until Sunday afternoon. The Thursday evening until Friday noon campout is, by rule definition, not to be an official field day event, so all tents and things that are set up before Friday noon will have to be moved (a little) after noon Friday.

We are again blessed in being able to use the easily recognizable call of Sharp, K5DX. This year, we will not have to sign portable five. This change alone should allow anyone to increase their rates over last year.

Again we are going to have the lottery system of drawing two (2) hour operating time slots. I hope we can make the lottery move along a little more swiftly than last year. Please don't anyone be bashful about choosing the time slot you want, also, please choose a time slot when your turn comes around. You can always swap or give away (maybe sell in some cases) your time slot.

Please find below, the station breakdowns, as far as bands to be operated and equipment scheduled for each station. If you see any holes or problems, please contact me and we'll correct things, otherwise try to aim your contributions to the proper area/station.

STATION 1 CAPTAIN: UNFILLED AT PRESSTIME

OPERATION: 10 Mtr, 20 Mtr, 40 Mtr, SSB

ANTENNAS: MOSELY 2EL 40 N5JJ

I hope this helps a little for people to be oriented, so we can hit the ground running. N5JJ will be running the erection process and will need your capable help for set-up and tear down. If you find yourself watching someone else working, please ask N5JJ or myself what you can do to help. We need all the help we can get.

Good luck to us all. We have many years of high scores to shoot for and it will take effort from everyone present to make us successful again (Especially with your green horn FD chairman). THANKS and hope to see Ya'll there.

FRATERNALLY,

N5DU

PS: Remember, this campsite is rather rustic. Your camping supplies should be adjusted accordingly.
