

THE BULL SHEET

OFFICIAL NEWS BULLETIN OF

THE TEXAS DX SOCIETY

an ARRL affiliated club

VOLUME V, NO. 10

November 1980

MEETING NOTICE: The November meeting is, as originally scheduled, Friday, 11/14, at the Marriot Brookhollow, Loop 610 North at TC Jester. Happy hour begins at 6 in Katies Bar, followed by dinner at 7 in Katies Restaurant, and the meeting gets underway in the Quail Valley Room about 8. The program is a presentation by the folks from Butternut on their vertical antennas. It promises to be a very enlightening program.

CONVENTION 80 is now history. Once again the convention appears to have been a great success and the TDXS activities were some of the highlights. Cudos have to first go to Bob, WD5CHY for an outstanding job of running the hospitality suite, Orville and Dennis for running the DX/Contest program, Lee and Sharp for the QSL display and Al, K5BZU for running the raffle. Reports came in far and wide, once again, that the TDXS hospitality and programs were applauded as being some of the best in the land.

SWEEPINGSTAKES FEVER has spread over the TDXS this year, thanks to the efforts of our contest Chairman K5WA and his staff of team captains, K5GN, K5MA, and KA5CHW. The CW weekend saw tremendous Club participation and an aggregate score that was 90%+ of our total score last year. Individually, the top five look like K5GA, K5IY(CHW), K5MA, N5JJ, K5GN, but, what's really amazing is the next 20 places in the TDXS. There were lots of big scores. We'll have a complete tally next month after the phone weekend. Team-wise, the G.N.'s are on top with the Weirdos second, Aristocrats third and the Aborigines bringing up the rear, but there aren't many points separating the teams. The Voice weekend should really bring some intense competition for the team honors AND MAYBE A TDXS GAVEL!

TOM'S SHORTS Don't forget, the November meeting is the time when we elect the 1981 TDXS officers, come out and Vote! Thanks to Dennis for putting together the Bullsheet last month while your hon. ed. was taking care of a few hundred last minute convention details. Visitors to Houston the last few weeks included K7JA (at the Convention), N6TR and VK6RU. K5NA/2 has a tribander and a loud signal in these parts. Richard is very active and anxious to QSO the Club members, especially on 160. WA3OVC passed his Extra and is trying to get rid of that yankee call sign. The intermod problem on 96/36 seems to have intensified with the onset of the cool weather (inversions and less path loss). We really need to keep the discussions of who we suspect as causing the interference off the air and report any specific observations to Kim, K5TU, at 463-7676. The new antenna will be on order shortly, and we hope that will help somewhat. Be advised that the problem is being worked as rapidly as possible.

PLANNING A DXPELITION? The following list, furnished by the FCC will give you an idea on where you might want to go:

Govenments that have reciprocal agreements with the U.S. are:

Argentina	Germany, Fed. Rep. of	Netherlands
